EXPERIENCE

Research Assistant – Ubicomp Health and Wellness Lab | Georgia Tech | Atlanta, Georgia

August 2025 – present

- Develop Python scripts with Reddit API to analyze nurse burnout, extracting insights on institutional support vs. peer support
- Generate user-centered findings for NSF-funded *NurseMaiT* to guide design of AI teammates that detect and respond to burnout
- Conduct HCI research with Dr. Arriaga to create patient-centered technologies that improve health and wellness outcomes

Technology Summer Analyst, Financial Services Clients | Accenture | New York, NY

June 2025 – August 2025

- Developed a PowerBI dashboard using 30+ data sources to visualize headcount and Jira-tracked work across a 2,500+ person team, enabling senior leadership to identify resourcing inefficiencies
- Authored material for 2026 tech debt budget planning for a \$29M portfolio, inclusive of North Star vision development and strategic roadmap to support long-term cost savings
- Contributed to the UI team by comparing staging site with Figma designs to identify and resolve styling inconsistencies by modifying React components and Tailwind utility classes

Technology Summer Analyst, Resources Client | Accenture | Atlanta, GA

June 2024 – August 2024

- Coordinated kickoff materials for a \$125M, 4-year ERP transformation project using SAP S/4 HANA, including PowerPoint decks and workshop schedules used by all client workstreams
- Supported C-suite presentation to client during Solution Confirmation, ensuring executive alignment on project scope and timeline
- Researched client goals & operations to create onboarding documentation, improving knowledge transfer for new team members

Lead TA | Girls Who Code Summer Immersion Program | Virtual

June 2023 – August 2023

- Taught a 2-week p5.js game design module to 3 cohorts of high schoolers worldwide, grading and adapting content for engagement
- Mentored 13 students per round through daily meetings and weekly office hours for debugging support
- Strengthened engagement through Discord/Zoom chat, organizing icebreakers, and outreach to absent students
- Facilitated corporate engagement events with CNA, Accenture, and Morgan Stanley, connecting students to industry mentors

LEADERSHIP

President | Girls Who Code | Atlanta, Georgia

September 2022 – present

- Lead 5 officers to serve 600+ members by delegating tasks, setting weekly agendas, and ensuring execution of semester goals
- Grew volunteer participation by 362% by implementing Mentoring Corps, linking GT mentors with a local high school GWC chapter
- Organized 12+ annual social and networking events with corporate sponsors, including Google, Accenture, Roblox, and UKG
- Increased meeting attendance by 32% through targeted programming and marketing and promoting corporate partner access

PLUS Leader | Georgia Tech Tutoring and Academic Support | Atlanta, GA

August 2023 – December 2024

- Selected as 1 of 2 PLUS leaders to support 700+ students in CS 1331: Intro to Object-Oriented Programming
- Created 50+ problem sets and hosted twice weekly sessions, including extended exam review sessions that improved student prep

AWARDS

- Selected as 1 of 4 students for Indiana Governor's 2022 STEM team, representing Technology
- Winner, Society of Women Engineers' Xilinx Empowering Women in Technology Scholarship (2022)

SKILLS

- **Product & Design:** UI/UX Design, Prototyping, Wireframing, Frontend Software Engineering
- **Technical:** React, Java, Python, Javascript, HTML, CSS, Kivy, Github, Object-Oriented Programming
- **Data & Analytics:** PowerBI, Tableau, SQL
- **Languages:** Arabic (Proficient), Spanish (Intermediate)
